Great excitement prevailed in Maryland, growing out of political dissensions. A memorial is in circulation in Baltimore, which is extensively signed by those who voted for Winter Davis, requesting him to resign immediately.

In the matter of the Indian Trust Bonds abstraction, Mr. Carlisle, counsel for Gov. Floyd, has interposed a demorrer on the ground that the parties were examined by the Investigating Committee, and are therefore exempt from indictment.

A "grand army," of 1000 mounted volun-teer frontiermen is rendezvousing in Jack county, Texas, for an expedition of extermi-nation against the hostile Indian tribes. They intend to push on to the very head-quarters of the enemy, and root them out of the land of the living, if possible.

It seems that the attack on Fort Pickens

was prevented mainly by through the in-strumentality of Ex-Senator Mallory, who went to Pensacola and represented that, in time, a demand would be made on the Government for the surrender of the Fort, which failing, an attack would be made after proper preparation.

A salvo of 32 guns was fired the other day at the town of Beverly, N. J., in honor of Major Anderson. Afterwards a special salute of three guns was fired in front of Madame Clement's school, in compliment to his two little daughters, Miss Sophia and Miss Maria Anderson, who are pupils at that seminary.

The New York Journal of Commerce says it is reported in Wall street that certain capitalists have addressed leading Republicans at Washington in terms more forcible than elegant, intimating that all the Loan Bills that can be passed will not extract from the Empire City another million of dollars, until some compromise is effected, or at least proffered to the seceding States.

A telegraphic descatch was required at

Fort Columbus, New York, at a quarter past 4 p. M., on Tuesday afternoon, the 5th of February, from Gen. Scott, ordering a detachment of thirty men for Fort Delaware, to leave forthwith. At a quarter past fivenone hour after the order was received—the detachment left the island under the command of Lieut. Wood, each man armed with his rifle and twenty-five rounds of ball cattridge. cartridge.

The proposition to suspend mail service in seceded States, as reported from the House Committee on Post Offices and Post Roads, meets the favor of all parties North and South. The Postmaster General may stop the service on the border of a seceding State, and there deliver to an authorized agent of said State an order to continue the transportation to the point of destination, provided the correspondence thus delivered be in United States envelopes.

be in United States envelopes.

The City Council of Savannah, Ga., have offered \$500 and the British Consul \$1,000 reward, for the apprehension of parties concerned in a late outrage upon Captain Vaughan, of the British ship "Kalos." The Captain gave his opinion as to the evil of secession, and so the "people" thought fit to lynch and abuse him outrageously. It is likely enough that the British Government may take up this case, and demand satisfaction of Georgia.

may take up this case, and demand satisfaction of Georgia.

Captain W. T. Sherman, late of Ohio, who was formerly in the army, and has spent some years in Louisiana, and there had charge of a military school, resigned his post on the passage of the Secession Ordinance of that State, and is preparing to go North, preferring to maintain his allegiance to the United States, to renouncing it for the Polican Nation. Captain Sherman is bro-Pelican Nation. Captain Sherman is brother of the Hon. John Sherman, and son-in-law of the Hon. Thomas Ewing.

Angeline Brown, of Wendell, formerly of Belcherton, started across lots to a neighbor's house, one mile distant, to be absent several days, on the 21st ult. On the 27th she was found frozen to death about twenty rods from the house she had left. It is supposed from her tracks in the snow that she turned back on account of the cold, and perished before she could reach shelter.

All the indications we have from Mary-All the indications we have from Mary-land, strengthen the belief that the tone of popular sentiment there is decidedly con-servative, and that the effort to get up an ir-regular Convention will be a failure. In regular Convention will be a failure. In some counties a majority has decided against it, and in others the votes number scarcely one halt of the whole. Delegates are however being elected all over the State.

A correspondent of the New York Times writes: Governor Pickens is denounced by many as being a perfect old fogy. I never heard any one speak unkindly of his wife, however. She is a perfect bundle of fascing here that the defeat of Mr. Greeley for the Senate will produce a good effect upon the present misunderstanding between the North and South, because it is considered a repudiation of the ultra sentiments of which has the house of the control of the sentiments of which is the house of the sentiments.

he is the known champion.

The annunciation of the dogma given recently, from the New York Tribune, in favor of preferring the principles of the Republican party to fifty Unions, in the very teeth of Mr. Seward's last speech, has, as might have been anticipated, produced a serious conflict in the Republican ranks, which can only be healed by the prostration of one or the other division of the party.

The New York Senate has passed a kill.

The ladies of Howard county, Missouri, have taken the Union in hand. On Saturday, February 9th, they held a meeting in Fayette, at which one hundred female names rayette, at which one hundred lemas names were enrolled. They resolved to present a flag to the man selected for a Union representative for that county, appointed a Committee of Arrangements for the presentation, and chose Miss Jane Lewis to make the speech. Among other proceedings, they resolved to invite several gentlemen to "address" them at a future meaning. a future meeting.

Here is the New York Herald's great sen-sation dispatch of February 9th:—Lam satis-fied, from positive information received disrectly from Charleston, that an attack has rectly from Charleston, that an attack has only heen postponed until they can ered a sufficient number of batteries to accomplish their purpose. The time for withholding reinforcements to Major Anderson will cease the moment Lieut. Hall returns to Fort Sumpter. Hearn from a reliable source, that Wednesday next has been fixed upon as about the time when the secessionists are to be ready to commence an assault on Fort Sumpter.

#### Home Productions---Lime.

Lime has been associated with civilization from the most remote ages. Century on century before coal was recognised as an indispensable requisite of progress, the uses and value of lime were known. It still holds its position; and modern ingenuity has yet failed in providing a substitute for it for building purposes. Fortunately for this and the neighboring colony, nature has supplied us with the most extensive deposits, and ere long it is likely to become one of our staple exports. On the eastern side of the continent, the Lower Provinces ship hundreds of thousands of tons of gypsum or plaister of Paris to the United States to be used for ornamental purposes and in agriculture. With the growth of California, Oregon, and Puget Sound and the Sandwich Islands, we may also find them an extensive market for our lime. The lime that ranks highest on the Pacific Coast, is that found at Santa Cruz, south of San Francisco. Most of the towns in the interior use it for building purposes. It is shipped to the Sandwich Islands, Oregon, Puget Sound, and even Victoria. Luckily, however, lime has been discovered in inexhaustible quantities on this Island, in the vicinity of Victoria and Esquimalt, on the islands forming dependencies of the colony, and along the whole coast of British Columbia. The quality furnished by quarries near Esquimalt is said by masons to be as good as the Santa Cruz lime. With such vast deposits as we passess, and the small quantity at present required for home consumption, we would direct the attention of lime-burners and

merchants to the markets abroad. Already enterprising firms are engaged in manufacturing time at San Juan Island, in order to supply our market, Puget Sound and Oregon. In Oregon there is no good lime accessible to the settlements; and hitherto they have drawn their supply from San Francisco. The limited quantity used on the Sound has been imported from the same place. In the Sandwich Islands, lime of a poor quality is made from the coral reefs; but the Santi Cruz article is the favorite. It may be exported either burned and barreled, or in the raw state as taken from the quarry. Experts in its manufacture and sale prefer to burn it. The pure article is thus only exported by putting it in a portable and immediately available shape. Besides, fuel for calcining it is most pleutiful in the neighborhood of the deposits, here than elsewhere. The duty on foreign lime entering the United States as sinks and lime entering the United States is eight per cent.; in the Sandwich Islands ten per cent. The price of burned lime on the Sound, in Oregon, and the Sandwich Islands varies from \$3, to \$3 50 per barrel; in San Francisco, \$2 to \$2 50. Limestone in Oregon is worth \$10 50 per ton. Allowing eight barrels to the ton, the value of a ton of lime would, in the former place, vary from \$24 to \$28; in the latter from \$16 to \$20. Considering the ease and cheapness with which it may be manufactured and shipped, we see no good reason why it may not yield a good profit for the labor and capital invested; nor why it may not become a staple article in our exports-more particularly to Oregon, where there is none. The small duty would prove no very serious drawbrack; and as we are gradually increasing our trade with that State, it is very desirable to provide a return cargo to offset our indebtedness, instead of sending away our gold. Even if the demand abroad should not be so great as our lime. deposits would induce us to wish, still if it can be produced as cheap, or cheaper here, and of as good a quality as elsewhere, the preparation will, to a limited extent, find profitable employment for a portion of our rising and industrious population.

CHARACTERISTIC .- Everbyody has heard of the hishman who wrote a letter to his swe theart and delivered it himself. Press people have a somewhat similar knack of copying the Hibernian example, and continually manufacture letters in their own office and publish them, as though they came from outsiders, and thus they atter the opinion as boldly as a sheep. One of these characteristic productions appeared yesterday, charging the Colonist with stating geographical "inaccuracies," about "Nicolas river being navigable for two hundred, miles." As usual, the Press is wrong. The item in question was copied as a mere "report" among a number of other terms from the British Columbian and duly credited. Is not the Press a delectable institution?

A report was circulated yesterday that an ocean steamship was coming around Race Rocks. The report proved untrue, and originated from the fact that one of the gunboats was engaged in supplying the lighthouse with provisions.

JUAN LIME,

PEASE & BOYCE,

Friday Morning, March 29, 1861. JOHN BUTTS RECEIVETH A SHOWER BATH AND SHOWETH HIS AGILITY .- Our readers all know that the renowned John Butts was said to have been stricken with paralysis some six weeks ago, while an active member of the chain-gang, and was sent to the hospital in a hand-cart, where he was placed under the tender care of Dr. Trimble. Various means were adopted, when he first entered the institution, to find out if he was matter how painful, was insufficient to inwere paralysed. So the attendants at the hospital finally gave over the application of a soft bed and read "religious" works; or, on fine days to drag himself by means of his hands to the front stoop and bask in the rays of the sun. Yesterday, however, Dr. Trimble, while at the hospital, observed a suspicious movement on his part, which led him to suppose that the Colony was being swindled to the extent of his board. Immediately summoning all the able-bodied inmates, Butts was seized, stripped, and placed in a chair at cold salt water were obtained, taken to the than from Portland. As soon as the trail the front of the house; eighteen buckets of top of the balcony, and thrown upon him from that height. Butts shivered and shook, but declared that he could not budge an an inch, although he begged the doctor to discontinue the treatment. It was no use. The doctor was inexorable. Eighteen more buckets of cold water were procured, and again poured over him. He shivered and shook considerably during the second bath, but would not rise. Again, the attendants rushed for cold water—eighteen buckets brinful were arranged on the balcony, and the attendants commenced to shower them down on the supposed helpless crea-ture below. The impostor stood it pretty well until the contents of the ninth pail had reached him, when he suddenly jumped from the chair and slid out of the way. A burst of laughter arose from all present, and after the supply above had been exhausted, Butts emerged from his hiding-place, leisurely pulled on his trousers, and then deliberately, in full sight of a dozen or more white personant was presented by a low fine supply above his su in full sight of a dozen or more white persons, laid down on the grass and slowly dragged himself again into the hospital! It is now thought that John, having been sentenced to the chain-gang for three months for selling whisky to ladians, had adopted the incentions device of pretending to be the ingenious device of pretending to paralyzed, in order that he might get over paralyzed, in order that he might get over doing hard work, and purposed, when the mnety days were up, to quit the hospital and resume his old vocation. His fine times have been cut short, however, and notwithstanding he still persists in saying that he is paralyzed, chances are that he will be sent back to work in a day or two. In case he refuses to move, we learn that the "watercure" will be resorted to again to-day. There never was so good an entertainment being that he crowded houses for the past week. There never was so good an entertainment being that he crowded houses for the past week.

Editor British Colonist:—\* As far as I have heard, the accident which caused the death of Capt. King occurred in caused the death of Capt. King occurred in the following manner: He was on shore, or had first got out of a canoe, and was in the act of drawing a gun from the canoe, when it accidentally went off, and the whole charge lodged in his arm and shoulder, breaking the shoulder-blade or bone. This was on Sunday, 3d inst., and through some unaccountable cause, he remained three days in the miserable little vessel. On the fourth day they took him to the Alberni settlement. An inquest was held over the fourth day they took him to the Alberni settlement. An inquest was held over the body, and it was buried among the forest trees. The parties in the vessel at the time of the accident were Master Devon, Capt. King's brother, Capt. Stuart, and a man by the name of Burnaby. I did not see poor King myself, as I was at Somas at the time he was brought on shore. A young man who attended him has just arrived at my place and tells me he suffered very much. THE ASSAULT CASE .- Thos. Phelan, who was arrested on Wednesday on a charge of assault preferred by W. Culverwell, was up for a hearing before the police magistrate It seems Phelan heard that yesterday. Culverwell had reported that he (Phelan) had clattawa'd out of the country. On Wednesday evening he met Culverwell on Yates street, and taking him affectionately by the collar of his coat, requested that he would go with him to Ringo's Hotel and face the person to whom he had said—" Phelan has run away." Culverwell very naturally resisted, broke from the grasp of his captor, not humbugging; but every test applied, no and started down Yates street at a breakneck speed for the police barracks. Phelan duce him to use his feet. He persisted in followed close at his heels, and a delighted saying that his legs, from his knees down, crowd of citizens brought up the rear. Arrived at the barracks, Culverwell laid his complaint; and Phelan, who found that he the tests, and suffered Mr. B. to recline upon had virtually rushed into the very mouth of the lion, was locked up; but was subsequently liberated on hail. His honor heard the case patiently and bound Mr. Phelan over to keep the peace for three months.

VICTORIA TRADE WITH ROCK CREEK .-We were yesterday shown a letter from a merchant at Rock Creek to a business man of Victoria, requesting that the latter would send him samples of certain goods, together with the prices, believing that he could do better by ordering his goods from this place via Fort Hope and Similkameen becomes passable, we expect that many orders will reach us from the same quarter. Oregon never will be able to compete with us in anything but flour, bacon and beans. The bulk of the imported goods must eventually go via the Fraser, and when the traders of Rock Creek and Cariboo discover that we have the best routes and better goods, at cheaper rates, good-bye to Portland's ephemeral competition with us in those quarters.

THE "CHURCH-GOING BELL." - A new bell, weighing 240 pounds, and cast by Mears of London, has been placed in the tower of St. John's Church. It will be rung to-day (Good Friday) for divine service. It was presented by a lady, (an intimate friend of Miss Burdett Coutts,) and bears the fol-

Letter from Cayoosh [From our Traveling Correspondent.] THE WEATHER.

EDITOR BRITISH COLONIST :- In my last letter to the Colonist I commented in somewhat lengthy terms on the fine weather the miners and residents were enjoying on the lower portion of the River. I supposed, however, as I proceeded up, that I would have to reverse the picture; but I have been happily disappointed. The monotony of an indoor life consequent on the severity of the winter months has long since been dispelled by the beautiful weather that has set in; and from information derived from the ubiquitous gentleman, the oldest inhabitant, I learn that the ground has thawed out, the ice broken up in the river, and the country generally decked itself in its vernal garb one month sooner this season than any year

heretofore in his recollection.

THE MINES-VAN WINKLE BAR.

The first place that I came to of any importance after my de arture from Lytton, was Van Winkle Bar, which still keeps up its reputation of possessing many good paying claims. A large wing dam was constructed on the river opposite the bar during the month of February, and the owners are already engaged washing very rich gravel, from which it is supposed a large amount of the yellow metal will be obtained. Quite a number are also doing well sluice-washing—there being plenty of water in the ditches at this season of the

FOSTER AND MORMON BARS A large wing-dam has just been completed at Mormon bar; but the boys have not yet got to washing. The miners on Foster bar have commenced sluice-washing, and John Payne & Co. informed me that they were making seven dollars per day to the hand, washing a substratum of gravel eleven feet deep. A share in the company is worth several thousand dollars.

A new ditch is about to be constructed for A new diten is about to be constituted to the purpose of conveying water on Texas and other bars; and the old Fountain ditch is being extended to Horsebeef bar and thence further on. From the various improvements I see going on I consider the country hereabouts to be in a very prosperous ENTERTAINMENT!

NO LACK OF PROVISIONS AT CARIBOO THIS

YEAR.

It is computed that three hundred animals, It is computed that three hundred animals, heavily laden with provisions, have already left Cayoosh for the Quesnelle and Cariboo country, and several trains are preparing to leave in a few days for the same section. These, therefore, that are preparing to leave in a few days for the same section. These, therefore, that are preparing to leave Victoria for the mines need not anticipate a searcity in the provision line, as "grub" will be more plentiful and much cheaper that it has ever been before. So all that intend coming had better hurry along and be on hand to take advantage of "the good time coming," and ready to reap the rich harvest about to set in.

THE WRECK OF THE INCOME.

The remains of the fallen bridge across the Fraser are to be seen here still. The owners lost \$17,000 by the mishap. As the old saying has it, "it's an ill wind that blows nobody good;" the ferry will do all the business as usual, and Parsonville, on the consertion book is again measuring quite the opposite bank, is again assuming quite a lively appearance. Preparations are being made for an extensive business here the ensuing summer.

THE WORLD'S FRIEND! Holloway's Ointment.

A Cure for Piles and Fistulas.

A Cure for PHes and Pistulas.

Inflammation of sensitive parts, piles, fistalas, and uch like painful diseases may be presently relieved, and ultimately cured, by the proper and dilignatuse of this cooling and healing Dintment, whose action should, in such cases, be assisted by judicious doses of Pills: ere many days have elapsed the anxious patent will experience a wonderful degree of ease from this treatment. They are equally suitable to both sexes, and all ages.

Coughs, Colds, and Asthma.

These complaints of the chest come on with alarming frequency. The Ointment should assiduously be rabbed at least twice a day on the ohest and between the shoulders, when the violence of all symptoms will gradually give way, the breathing become longer, and the oppression less. No medicines are more ellicient in chest complaints, none can be used with equal safety and certainty. Both Fills and Ointment are accompanied by very clear and simple directions for using them.

Dropsy, Swollen Legs or Ankles.
The various kinds of dropsies, whether windy or watery, arise from some obstruction to the free circulation though the blood vessels or lymphatics, or depend on the inflamed state of some secreting surface. Holloway's remedies, of which the efficacy cannot be exaggerated, act directly upon the blood, the absorbents and secretions, with a power that no dropsy however inveterate, can long resist. They regulate the proper flow of blood to every organ, and purify it likewise,—they filter out everything that is morbid or injurious,—they throughly regenerate every function, yet potent as they are for good, they are power-less for evil.
